Fire Dept.:

- No New calls
- Valve was fixed for damage from work while doing tornado clean up, will be billed to disaster fund. Another small leak will need to be repaired
- Truck lights need updates to LED lights, still need quote
- An \$80,000 donation to the City from the Fire Department's lawful gambling fund was received in January. A motion was made by Megian to designate this money to the fire fund, seconded by Warren; motion carried.
- Air packs are expired and need hydro testing. Testing will be done in March

City Maintenance:

-The insurance adjuster came out to look at tornado damage, but it was too cold to inspect everything so he will need to come back. He approved repairs for everything that could be inspected: gazebo area, etc. The adjuster still needs to look at roofs, ground damage such as the parks, and other areas. Further inspections will be done in the spring, the City has one year from the tornado to make all necessary repairs under insurance requirements.
