COVID-19

With the recent concerns of the spread of the coronavirus Covid-19, the City asks that all residents exercise the safe practices recommended by the World Health Organization – “**Do the Five**”

- 1.) Wash hands often
- 2.) Cough and sneeze into elbow, fully covering nose and mouth
- 3.) Avoid touching your face
- 4.) Avoid close contact (3 feet) with anyone with cold or flu-like symptoms
- 5.) Stay home if you are feeling ill

These concerns have also led to a shortage of toilet paper on store shelves, which may cause individuals to use alternative products. Please keep in mind that other products such as paper towels, baby wipes, and flushable wipes do not break down like toilet paper. These products can cause sanitary sewer issues, including backups, which can create additional public health concerns. Paper products other than toilet paper can clog your sewer system as well as the municipal sewer system, which will lead to costly repairs for the affected homeowners. **Please do not flush items other than toilet paper.**

“When this is over, may we never
again take for granted
a handshake with a stranger,
full shelves at the store,
conversations with neighbors,
a crowded theatre,
Friday night out,
the taste of communion,
a routine checkup,
the school rush each morning,
coffee with a friend,
the stadium roaring,
each deep breath,
a boring Tuesday,
life itself.

When this ends, may we find that we
have become more like the people
we wanted to be,
we were called to be,
we hoped to be,
and may we stay that way – better for
each other because of the worst.”
